

Solutions Overview

Solution	Part Number	Minimum Memory Required	Hard Disk	Trial Available
ESF APPS				
Accessibility Solution	82S0087	256	Not required	No
Description	Users with disabilities can set up copy, fax, email, FTP and scan jobs directly from their workstation rather than requiring use of the Lexmark smart MFP touch screen.			
AccuRead Automate	82S0982	1024	Required	No
Description	Lexmark's AccuRead Automate app enables a Lexmark smart MFP to capture, automatically classify, and route documents, while extracting key information for file naming and indexing.			
AccuRead OCR	82S0984	512	Required	No
Description	Create searchable or editable files (PDF, RTF, TXT) on a Lexmark smart MFP.			
Bar Code Discovery	82S0083	256	Required	No
Description	Create and manage templates for applications that use bar code reading for indexing and other functions, including Scan to Network Premium.			
Card Authentication	82S0830	256	Not required	No
Description	Keep devices and documents secure by requiring user authentication by ID card or security badge. Secure and compatible with Active Directory and other directory server platforms.			
Card Copy	82S0245	256	Not required	No
Description	Capture both sides of ID/credit cards, print on one side of paper and save to a network folder. Hard disk not required, but offers extra storage.			
Cloud Connector	82S1072	512mb	Not required	No
Description	Lexmark Cloud Connector is a Lexmark device-based interface to the cloud that connects users effortlessly and securely to all their files. With Cloud Connector, users are in total control of when and where they access, store and print files and scans. There's no need for a smartphone, computer or tablet - just an e-Task equipped Lexmark multi- or single-function product MFP or printer.			
Customer Support	82S0247	256	Not required	No
Description	Send email alerts to help desks or service providers to request support. Pertinent information about the device can be included in the automated email.			
Device Quotas	82S0139	256	Required	No
Description	Allow the administrator to configure user level quotas for print, scan, copy and outbound fax on a specific Lexmark device.			
Display Customization	82S0218	256	Not required	No
Description	Make your Lexmark device uniquely yours by changing the background image displayed on the home screen or the idle or standby mode screen.			
Downtime Assistant	82S0194	256	Required	No
Description	24/7 access to critical documents, even if the network goes down. Documents are streamed to the device throughout the day and stored on the secure hard disk.			
Eco Copy	82S0229	256	Not required	No
Description	Control paper and toner costs with three eco-smart copy settings: darkness control, automatic duplex and paper saver, which copies pages multi-up onto one piece of paper.			
Fax over IP	82S0397	256	Not required	Yes
Description	Eliminate the need for a separate analog fax line or fax card/modem. Instead faxes are sent directly from the Lexmark smart MFP through the IP network.			
Multi Send	82S0137	256	Required	No
Description	Capture and route a document to multiple destinations simultaneously. Documents are routed to email, network folders, FTP sites or to a remote Lexmark printer.			

Solution	Part Number	Minimum Memory Required	Hard Disk	Trial Available
QR Code Generator	82S0143	256	Not required	No
Description	Generate a Quick Response (QR) Code and display it on the device e-Task touch screen, making it easy to find the printer on your tablet or smartphone.			
Scan Center	82S0969	1024	Required	No
Description	Scan a paper document once and route the digital image file to multiple destinations simultaneously: email addresses, network folders, FTP sites, fax machines, electronic document archives or other secure network locations, plus optional delivery confirmation.			
Scan Center Premium	82S0970	1024	Required	No
Description	Advanced imaging capabilities allow users to scan a paper document once and route the digital image file to up to 500 saved destinations simultaneously.			
Scan to Hard Disk	82S0153	256	Required	No
Description	Capture documents and save them on the printer's secure hard disk for printing on demand. Save documents in public or private folders.			
Scan to Network	82S0191	256	Not required	No
Description	Capture an image of a printed document and route the image to a predefined personal or public shared network folder.			
Scan to Network Premium	82S0082	1024	Required	No
Description	Capture an image of a printed document, preview the entire document, remove image defects, add or remove pages, route the optimized image to a predefined personal or public shared network folder and send a notification after storing the image file.			
Scan to RightFax	82S0536	256	Not required	No
Description	Easily scan documents directly from a Lexmark smart MFP into a RightFax server allowing users to send and receive faxes to their desktop PC.			
Scan to RightFax XML	82S0184	256	Not required	No
Description	Lexmark Scan to RightFax XML allows you to easily scan documents directly from a Lexmark smart MFP into a RightFax server allowing users to send and receive faxes to their desktop PC.			
Scan to SharePoint	82S0085	256	Not required	No
Description	Enables Microsoft SharePoint® users to access the powerful array of tools to capture, index and retrieve documents, check documents out and in, with robust version control.			
Scan to SharePoint Online	82S1116	256	Not required	No
Description	Scan to SharePoint Online enables Microsoft SharePoint® users to access the powerful array of tools to capture, index and retrieve documents, check documents out and in, with robust version control.			
Shortcut Center	82S0227	256	Not required	No
Description	Create personalized shortcuts for frequent copy, fax and email tasks. Choose the name and icon, settings, email addresses and phone numbers.			
Solution Composer	82S0291	256	Required	No
Description	It all starts here. The foundational framework to create customized solutions and embedded apps for specific business processes on Lexmark smart MFPs.
